EDUCATION

SRM Institute of Science and Technology, Amaravati

B.Tech in Computer Science and Engineering (AI & ML) | CGPA: 8.22/10

2023 – Present

Andhra Pradesh

INTERNSHIP

EduNet Foundation via IBM SkillsBuild

Full Stack(MERN) Intern

June 23, 2025 – Aug. 04, 2025

Remote

- Developed a **role-based full-stack web application** for managing blood donations, requests, and inventory for donors, recipients, and admins.
- Built with **Node.js, Express.js, HTML, CSS, JavaScript, and MongoDB Atlas**; deployed on Render.

PROJECTS

DeepFake Audio Detection System

[GitHub](#)

- Tech:** Python, TensorFlow, Keras, Streamlit, Librosa, SoundFile, Scikit-learn, NumPy, Pandas, Matplotlib, Jupyter Notebook, CNN, MFCC
- Built a CNN-based system to classify audio as real or spoofed using MFCC features from the ASVspoof 2019 dataset.
- Designed a pipeline that converts audio to FLAC, splits it into chunks, and averages CNN predictions for the final label.
- Deployed an interactive Streamlit app supporting multiple audio formats for real-time inference.

AI Career Intelligence Platform

[GitHub](#)

- Tech:** React.js, FastAPI, Neo4j, Redis, Docker, JWT, SpaCy, OpenAI/Groq
- Built an AI-powered platform that analyzes resumes, identifies skill gaps, and generates personalized career roadmaps.
- Implemented graph-based recommendations with Neo4j, NLP/LLM skill extraction, JWT authentication, Redis caching, and Dockerized deployment.

FaqFlow – AI RAG Bot

[GitHub](#) | [Live Demo](#)

- Tech:** Python, FastAPI, JavaScript, Pinecone, HuggingFace, Groq LLM
- Built a **conversational AI assistant with RAG architecture** using FastAPI, Pinecone, HuggingFace embeddings, and GROQ LLMs; implemented semantic retrieval, prompt-engineered response generation, chat history handling, and an interactive JavaScript-based chat interface.

DocuMind – AI Document Assistant

[GitHub](#)

- Tech:** Python, FastAPI, React.js, Pinecone, FastEmbed, Groq LLM, PyMuPDF, Tesseract OCR, Tailwind CSS
- Built a **RAG-based document assistant** for chatting with PDFs, DOCX, and PPTX files; implemented OCR-based text extraction, semantic search, real-time streaming chat, and **source-aware responses** with page number citations.

SKILLS

Programming Languages : C++, Java, Python, JavaScript, SQL

Core Computer Science : Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Computer Networks, DBMS

Systems & Architecture : System Design, Microservices, REST APIs, Distributed Systems Fundamentals

AI / Agentic Systems : Machine Learning, LLMs, RAG (Retrieval-Augmented Generation)

Backend Development : Node.js, Express.js, FastAPI

Databases : MySQL, MongoDB

Cloud & DevOps : Azure, Docker, Git, GitHub, CI/CD
